# Xocova – Availability of Product

This medical response contains information in addition to that provided in the XOCOVA® (ensitrelvir) tablets, for oral use Full Prescribing Information approved by the U.S. Food and Drug Administration (FDA). This document is being provided in response to an unsolicited request for medical information from a healthcare professional. Shionogi does not recommend the use of XOCOVA in any manner other than as described in the Full Prescribing Information. **Please read the attached XOCOVA Full Prescribing Information.**

XOCOVA is available for ordering through local pharmacies. Local pharmacies can order XOCOVA through their wholesaler. All major wholesalers have access to XOCOVA, with product distributed to multiple distribution centers to support pharmacy ordering. Independent retail or chain pharmacies can order XOCOVA for delivery the next business day, if needed. To have XOCOVA filled, a valid prescription from a licensed healthcare provider is required.

Please note that availability may vary by location, so it is recommended to check directly with your patient's local pharmacy.

## RELEVANT PRESCRIBING INFORMATION

### Indications and Usage

XOCOVA is indicated for post-exposure prophylaxis of coronavirus disease 2019 (COVID-19) in adults and adolescents 12 years of age and older following contact with an individual who has COVID-19.[1]

### Contraindications

XOCOVA is contraindicated in patients with a history of clinically significant hypersensitivity reactions to ensitrelvir or any other components of the product.[1]

XOCOVA is contraindicated in patients taking drugs that are[1]:

- Primarily metabolized by CYP3A for which elevated concentrations may be associated with serious and/or life-threatening reactions and
- Strong CYP3A inducers because they may significantly reduce ensitrelvir plasma concentrations, leading to the potential loss of virologic response.[1]

Please read the attached XOCOVA **Full Prescribing Information.** The use of XOCOVA in any manner other than as described in the Full Prescribing Information approved by the U.S. Food and Drug Administration (FDA) is not recommended.
