Fetroja – Availability of Antimicrobial Susceptibility Testing (AST) Resources

This medical response contains information in addition to that provided in the Fetroja® (cefiderocol) for injection, for intravenous use Full Prescribing Information approved by the US Food and Drug Administration (FDA). Shionogi does not recommend the use of Fetroja in any manner other than as described in the Full Prescribing Information. **Please see the accompanying Full Prescribing Information for Fetroja.**

Cleared AST Devices

There are several antimicrobial susceptibility testing (AST) devices available for cefiderocol that have been cleared by the FDA:

Disks

- HardyDisks™
- Thermo Scientific™ Oxoid™ Discs
- BD BBLTM Sensi-Disc™

Plates/Panels

- Thermo Scientific™ Sensititre™ MIC Plates
  - Please note that this item is unavailable as of May 2026
- Liofilchem® ComASP® Cefiderocol 0.008-128

Fetroja – Availability of Antimicrobial Susceptibility Testing (AST) Resources

This medical response contains information in addition to that provided in the Fetroja® (cefiderocol) for injection, for intravenous use Full Prescribing Information approved by the US Food and Drug Administration (FDA). Shionogi does not recommend the use of Fetroja in any manner other than as described in the Full Prescribing Information. **Please see the accompanying Full Prescribing Information for Fetroja.**

HardyDisks™

- HardyDisks™ have been cleared by the FDA
- To order HardyDisks™ for cefiderocol or request additional information, please contact Hardy Diagnostics at 800.266.2222 or visit their website at www.hardydiagnostics.com.
- The catalog numbers are Z9431 (1 cartridge of 50 disks) and Z9435 (5 cartridges of 50 disks)
- See more about the product here: HardyDisks™ Cefiderocol, FDC30, Fetroja

Fetroja – Availability of Antimicrobial Susceptibility Testing (AST) Resources

This medical response contains information in addition to that provided in the Fetroja® (cefiderocol) for injection, for intravenous use Full Prescribing Information approved by the US Food and Drug Administration (FDA). Shionogi does not recommend the use of Fetroja in any manner other than as described in the Full Prescribing Information. **Please see the accompanying Full Prescribing Information for Fetroja.**

BD BBL™ Sensi-Disc™

- BD BBL™ Sensi-Disc™ cefiderocol discs have been cleared by the FDA
- To order cefiderocol discs, please contact BD at 844.823.5433
- The reference number is 232255 (50 discs)

Figure 3: BD BBL™ Sensi-Disc™

For illustration purpose only

Fetroja – Availability of Antimicrobial Susceptibility Testing (AST) Resources

This medical response contains information in addition to that provided in the Fetroja® (cefiderocol) for injection, for intravenous use Full Prescribing Information approved by the US Food and Drug Administration (FDA). Shionogi does not recommend the use of Fetroja in any manner other than as described in the Full Prescribing Information. **Please see the accompanying Full Prescribing Information for Fetroja.**

Thermo Scientific™ Sensititre™ MIC Plates

- Thermo Scientific™ Sensititre™ MIC Plates have been cleared by the FDA
- To order Thermo Scientific™ Sensititre™ MIC Plates with cefiderocol, please contact your local Thermo Fisher Scientific Microbiology representative at microbiology@thermofisher.com or 800.255.6730 or visit www.thermofisher.com/AST
- The catalog number is MDRGN2F (Please note that this item is unavailable as of May 2026)

See more about the product here:

Fetroja – Availability of Antimicrobial Susceptibility Testing (AST) Resources

This medical response contains information in addition to that provided in the Fetroja® (cefiderocol) for injection, for intravenous use Full Prescribing Information approved by the US Food and Drug Administration (FDA). Shionogi does not recommend the use of Fetroja in any manner other than as described in the Full Prescribing Information. **Please see the accompanying Full Prescribing Information for Fetroja.**

Liofilchem® ComASP® Panels

- Liofilchem® ComASP® Cefiderocol 0.008-128 broth microdilution panels have been cleared by the FDA. In the US, these panels may be ordered from either of these companies:

Liofilchem, Inc.
781.902.0312 or orders@liofilchem.us

- The reference number is 75009U for 4 panels (8 tests). See more about the product here: ComASP® Cefiderocol 0.008-128
- The reading guide for ComASP® Cefiderocol 75009U (FDA-cleared) is available

Fisher Scientific
800.766.7000 or https://www.fishersci.com/

- The catalog number is 22-778-086 for 4 panels (8 tests).

Fetroja – Availability of Antimicrobial Susceptibility Testing (AST) Resources

This medical response contains information in addition to that provided in the Fetroja® (cefiderocol) for injection, for intravenous use Full Prescribing Information approved by the US Food and Drug Administration (FDA). Shionogi does not recommend the use of Fetroja in any manner other than as described in the Full Prescribing Information. **Please see the accompanying Full Prescribing Information for Fetroja.**

Research Use Only Devices

AST devices available for cefiderocol that are for RUO include:

- Liofilchem® Cefiderocol MTS™ (MIC Test Strip) 0.016-256
- Liofilchem® Discs
- Thermo Scientific™ Sensititre™ MIC Plates with Cefiderocol, Colistin, and Fosfomycin
  - Please note that this item is unavailable as of May 2026

It should be noted that results from RUO devices are not to be used in determining therapeutic options for patient treatment.

Fetroja – Availability of Antimicrobial Susceptibility Testing (AST) Resources

This medical response contains information in addition to that provided in the Fetroja® (cefiderocol) for injection, for intravenous use Full Prescribing Information approved by the US Food and Drug Administration (FDA). Shionogi does not recommend the use of Fetroja in any manner other than as described in the Full Prescribing Information. **Please see the accompanying Full Prescribing Information for Fetroja.**

Liofilchem® Cefiderocol MTS™

- Liofilchem® has made MTS™ Cefiderocol (MIC Test Strip) 0.016-256 available for purchase. MTS™ Cefiderocol strips are for RUO in the US and should only be used to determine the MIC of *Pseudomonas aeruginosa*

See more about the product here: MTS™ Cefiderocol 0.016-256

In the US, these strips may be ordered from either of these companies:

Liofilchem, Inc.

781.902.0312 or orders@liofilchem.us

The reference numbers are:

- 920671 for 10/pack (individually packed)
- 92067 for 30/pack (individually packed)
- 920670 for 100/pack

Fisher Scientific

800.766.7000 or https://www.fishersci.com/

- The catalog number is 22-778-078 (1 pack of 10 RUO strips)

It should be noted that results from RUO devices are not to be used in determining therapeutic options for patient treatment.

Fetroja – Availability of Antimicrobial Susceptibility Testing (AST) Resources

This medical response contains information in addition to that provided in the Fetroja® (cefiderocol) for injection, for intravenous use Full Prescribing Information approved by the US Food and Drug Administration (FDA). Shionogi does not recommend the use of Fetroja in any manner other than as described in the Full Prescribing Information. **Please see the accompanying Full Prescribing Information for Fetroja.**

Liofilchem® Discs

- Liofilchem® discs are available for purchase for RUO in the US. To order Liofilchem® discs, please contact Liofilchem, Inc at 781.902.0312 or orders@liofilchem.us

See more about the product here: Liofilchem® Discs

The reference numbers are:

- 9266 for 5 packs of 50
- 9266/1 for one pack of 50
- 9266/2 for 250 discs

It should be noted that results from RUO devices are not to be used in determining therapeutic options for patient treatment.

Fetroja – Availability of Antimicrobial Susceptibility Testing (AST) Resources

This medical response contains information in addition to that provided in the Fetroja® (cefiderocol) for injection, for intravenous use Full Prescribing Information approved by the US Food and Drug Administration (FDA). Shionogi does not recommend the use of Fetroja in any manner other than as described in the Full Prescribing Information. **Please see the accompanying Full Prescribing Information for Fetroja.**

Thermo Scientific™ Sensititre™ MIC Plates

- Thermo Scientific™ Sensititre™ MIC Plates with cefiderocol, colistin, and fosfomycin are available for research use only (RUO)
- To order Thermo Scientific™ Sensititre™ MIC Plates with cefiderocol, colistin, and fosfomycin, please contact your local Thermo Fisher Scientific Microbiology representative at microbiology@thermofisher.com or 800.255.6730 or visit www.thermofisher.com/AST
- The catalog number is MDRGNX2F with cefiderocol, colistin, and fosfomycin (Please note that this item is unavailable as of May 2026)

Fetroja – Availability of Antimicrobial Susceptibility Testing (AST) Resources

This medical response contains information in addition to that provided in the Fetroja® (cefiderocol) for injection, for intravenous use Full Prescribing Information approved by the US Food and Drug Administration (FDA). Shionogi does not recommend the use of Fetroja in any manner other than as described in the Full Prescribing Information. **Please see the accompanying Full Prescribing Information for Fetroja.**

Summary

Shionogi has collaborated with Laboratory Specialists Inc. (LSI) and CDC & FDA AR Isolate Bank to develop a panel of isolates for laboratories to perform verification of cefiderocol susceptibility testing.

A laboratory may use either of the two panels (LSI or CDC & FDA AR Isolate Bank) or a combination of isolates to validate testing in their laboratory.

Fetroja – Availability of Antimicrobial Susceptibility Testing (AST) Resources

This medical response contains information in addition to that provided in the Fetroja® (cefiderocol) for injection, for intravenous use Full Prescribing Information approved by the US Food and Drug Administration (FDA). Shionogi does not recommend the use of Fetroja in any manner other than as described in the Full Prescribing Information. **Please see the accompanying Full Prescribing Information for Fetroja.**

Laboratory Specialists Inc.

Shionogi has collaborated with Laboratory Specialists Inc. (LSI) to develop a panel of isolates for laboratories to perform verification of cefiderocol susceptibility testing. This panel is available at no cost to the laboratory.

To request isolates:

- Download the form at the LSI website, http://www.labspec.org/. The form can be found by selecting “AST Method Verification Isolates for New Agents” from the home page. Then, select “request form”
- Fill out the form to request the cefiderocol panel
- Fax the form to (440) 835-5786 or email it to info@labspec.org
- For additional information, contact LSI at info@labspec.org or 440.835.4458

The clinical isolates included in the LSI panel are:[1]

- *Escherichia coli*
- *Enterobacter cloacae*
- *Klebsiella pneumoniae*
- *Proteus mirabilis*
- *Pseudomonas aeruginosa*
- *Acinetobacter baumannii*
- *Stenotrophomonas maltophilia*

Fetroja – Availability of Antimicrobial Susceptibility Testing (AST) Resources

This medical response contains information in addition to that provided in the Fetroja® (cefiderocol) for injection, for intravenous use Full Prescribing Information approved by the US Food and Drug Administration (FDA). Shionogi does not recommend the use of Fetroja in any manner other than as described in the Full Prescribing Information. **Please see the accompanying Full Prescribing Information for Fetroja.**

CDC & FDA AR Isolate Bank

Shionogi has collaborated with the CDC & FDA AR Isolate Bank (http://wwwn.cdc.gov/arisolatebank/) to develop a panel of isolates for laboratories to perform verification of cefiderocol susceptibility testing. For a detailed listing of isolates and to order the panel visit http://wwwn.cdc.gov/ARIsolateBank/Panel/PanelDetail?ID=1227.

Isolates are provided at no cost to approved institutions, and customers are charged for shipping costs.

The CDC & FDA AR Isolate Panel includes only the pathogens for which the FDA has determined cefiderocol has demonstrated clinical efficacy and provided breakpoints. The isolates included in the panel are:

- *Escherichia coli*
- *Enterobacter cloacae*
- *Klebsiella pneumoniae*
- *Proteus mirabilis*
- *Serratia marcescens*
- *Pseudomonas aeruginosa*
- *Acinetobacter baumannii*

Fetroja – Availability of Antimicrobial Susceptibility Testing (AST) Resources

SHIONOGI

This medical response contains information in addition to that provided in the Fetroja® (cefiderocol) for injection, for intravenous use Full Prescribing Information approved by the US Food and Drug Administration (FDA). Shionogi does not recommend the use of Fetroja in any manner other than as described in the Full Prescribing Information. **Please see the accompanying Full Prescribing Information for Fetroja.**

Several institutions have antimicrobial susceptibility testing capabilities for cefiderocol and are available to provide testing services (please see below for the List of Reference Laboratories with associated contact information).

List of Reference Laboratories

- Alabama
- Florida
- Georgia
- Maryland
- Minnesota
- Nevada
- New Jersey
- Ohio
- Tennessee
- Utah
- Wisconsin

Thermo Fisher Scientific is able to perform susceptibility testing on isolates. However, it should be noted that Thermo Fisher Scientific is not a CLIA-certified laboratory and there is a fee for testing.

For more information, please email isolatetesting@thermofisher.com or contact technical support at USCLEtechsupport@thermofisher.com.

Fetroja – Availability of Antimicrobial Susceptibility Testing (AST) Resources

This medical response contains information in addition to that provided in the Fetroja® (cefiderocol) for injection, for intravenous use Full Prescribing Information approved by the US Food and Drug Administration (FDA). Shionogi does not recommend the use of Fetroja in any manner other than as described in the Full Prescribing Information. **Please see the accompanying Full Prescribing Information for Fetroja.**

Fetroja® is indicated in patients 18 years of age or older for the treatment of:[2]

- Complicated urinary tract infections (cUTIs), including pyelonephritis caused by the following susceptible Gram-negative microorganisms:
  - *Escherichia coli*
  - *Klebsiella pneumoniae*
  - *Proteus mirabilis*
  - *Pseudomonas aeruginosa*
  - *Enterobacter cloacae* complex
- Hospital-acquired bacterial pneumonia and ventilator-associated bacterial pneumonia (HABP/VABP), caused by the following susceptible Gram-negative microorganisms:
  - *Acinetobacter baumannii* complex
  - *Escherichia coli*
  - *Enterobacter cloacae* complex
  - *Klebsiella pneumoniae*
  - *Pseudomonas aeruginosa*
  - *Serratia marcescens*

Fetroja is contraindicated in:[2]

- Patients with a known history of severe hypersensitivity to cefiderocol or other beta-lactam antibacterial drugs, or any other component of Fetroja

Fetroja – Availability of Antimicrobial Susceptibility Testing (AST) Resources

This medical response contains information in addition to that provided in the Fetroja® (cefiderocol) for injection, for intravenous use Full Prescribing Information approved by the US Food and Drug Administration (FDA). Shionogi does not recommend the use of Fetroja in any manner other than as described in the Full Prescribing Information. **Please see the accompanying Full Prescribing Information for Fetroja.**
