# Fetroja – Stability During Pneumatic Tube Transport

This medical response contains information in addition to that provided in the Fetroja® (cefiderocol) for injection, for intravenous use Full Prescribing Information approved by the U.S. Food and Drug Administration (FDA). Shionogi does not recommend the use of Fetroja in any manner other than as described in the Full Prescribing Information. **Please read the attached Fetroja Full Prescribing Information.**

## 1. TRANSPORT THROUGH PNEUMATIC TUBES

The stability of cefiderocol diluted solution following transport through pneumatic tube systems has not been evaluated.

## 2. LITERATURE SEARCH

As of October 2026, a computerized search of the published medical literature using internal and external databases (ie, Medline® and Embase®) has failed to identify any relevant references regarding cefiderocol stability when transported through pneumatic tube systems. Please keep in mind that medical literature databases, while considered a major source of biomedical information, are selective in their sources, and the information derived from it should not be considered all-inclusive.

## 3. RELEVANT PRESCRIBING INFORMATION

Fetroja® is indicated in patients 18 years of age or older for the treatment of:[1]
